

New Capability on Industry Leading Finance and Insurance Printer Streamlines Forms Archiving for Dealerships using the Reynolds & Reynolds docuPAD® System

New ACE 7450 printer firmware enables barcode printing on DMV forms for automatic indexing when archiving to electronic deal jackets

DUNCAN, SC, September 19, 2016 – [ACE Solutions](#) - a leader in Automotive Dealership Management System equipment - in conjunction with manufacturer [AMT Datasouth Corp](#), announces new capability of the powerful ACE 7450 flat-bed printer that allows for the printing of barcodes on the DMV form, enabling automatic document archiving to the electronic deal jacket. This new capability is achieved through new firmware on the ACE 7450 that integrates with the [Reynolds & Reynolds docuPAD](#) - a robust, interactive retail management system that is user-friendly for the dealer and their customers.

The user-friendly ACE 7450 is the only Finance & Insurance Forms printer that provides full compatibility on multiple Dealership Management Systems such as Reynolds & Reynolds, Dealertrack, Automate, Frazier and MPK. This extensive compatibility also means that dealerships can change systems if they choose without having to change printers. The ACE 7450 has several fast and powerful features including:

- Prints cut sheet forms of 7 parts up to 16" wide and 37" long
- Consistent cut sheet and tractor-fed forms handling
- 24-pin printhead
- 600 cps print speed
- Automatic form loading and parking
- Automatic form thickness detection
- Automatic paper skew detection and correction
- No forms waste

ACE Solutions and AMT Datasouth also offer the Documax 5380, a narrow carriage flat-bed printer. This model also prints 7 part forms with a 24-pin printhead with no wasted forms.

All ACE Solutions clients are encouraged to call 888-595-2231 or email support@mydealerdirect.com to receive the latest firmware update at no charge. Visit www.mydealerdirect.com for details.

ABOUT

Since inception in 1999, ACE Solutions has evolved to meet the ever-changing IT demands of automotive clients as well as many other small to medium businesses. By working closely and understanding their clients requirements and goals, ACE Solutions and their selected partners are among the industry's leading providers of technology services to dealerships. One of those select partners is AMT Datasouth, providing printer solutions featuring the latest technology in hardware and application dependent firmware since 1983.
