

AUTO-SWITCHING POWER SUPPLY

Part No. BBF-106306 Rev *

The A600, C600 and T600 are now equipped with a Universal Line Sensing / Auto Voltage Switching Power Supply. The printer automatically senses the line voltage applied and accordingly switches the input configuration of the power supply.

The following changes should be noted:

- 1) All external fusing has been removed. Fusing for this printer is provided on the Power Supply PCB.**
- 2) This printer will function with 115 volts and 230 volts.**
- 3) A 115 volt Power Cord is provided with each printer. If the power cord provided is not applicable, a 230 volt power cord can be obtained through your distributor (part number CAR-101389).**
